## In Memorium

"If you want something done, you ask a busy man." How well this applied to the life of "Wink". In spite of the pressures of business, he always had time to listen to our problems, and make them his own. With untiring effort he sought to bring harmony and progress to our area.

Perhaps we never appreciated, or at least never showed our thanks for all he did. It is fitting, therefore, in dedicating this report to his memory, to rededicate ourselves to the same selflessness, love and concern, which motivated "Wink". The same type of problem still exists. Challenges are always with us.

Our community will be the better for all of us, if, in honor of "Winks" memory, we seek to live, as he did, for the benefit of all.

## REPORT OF GALE LIBRARY TRUSTEES

The Trustees of Gale Library regret the need to report the loss of their librarian, Mrs. A. Marian Hatch, through death during this year. Mrs. Hatch was a faithful servant of the town for more than 20 years. For many years her chief concern was to fulfill her duties honestly and well. We are sure she has received that commendation "Well done, thou good and faithful servant."

In tribute to her the board set aside \$100 of its book funds to create a memorial to her, hoping that townspeople and friends would make donations to it and attain a goal of \$500. To date \$460.60 has been reached. We still hope that additional donations will be made to it so the goal may be attained. Interest on the fund will be used for the purchase of books.

We were fortunate to obtain Mrs. Marjorie D. Moisan as a substitute during the last several months of Mrs. Hatch's life. She has proved herself capable, genial, and willing to meet the many requirements of the post. She has already taken courses to qualify herself as a good librarian and meet the standards now set by the state. She was appointed librarian immediately after Mrs. Hatch's demise.

---

We are well pleased that many of the newcomers to town are making weekly use of the library and its facilities. They are setting a good example which many of the older residents might emulate.

Library requirements are increasing annually to keep pace with this fast moving era. We shall endeavor to meet these needs of the community.

One method we have adopted to meet these needs is the installation of a telephone. We can immediately contact Concord or the Exeter Branch of the State Library for materials we do not have and thus provide them much faster than ever before. It is also possible for book borrowers to renew books without the need of coming to the library. We have limited its use to library business only as a precautionary measure.

We are indebted to many townspeople for donations of books during the year. To all we say "Thank You. It Is Appreciated."

Through the generosity of Mrs. Charles L. Holmes, we were refunded the cost of a new magazine rack.

Friends of the Gale Library have assisted the Library and the librarian this year in several ways. They have provided four sit-upons for the children's section, provided film programs, assisted with story hours and have on order a book at each grade level, Grade 1 through 12, to be given to the library, in addition to librarian assistance. Much credit is due them.

Again we are indebted to the state library for a donation of \$100 for the purchase of reference books and to Mrs. Rachel Sanborn, State Library area consultant, for her generous help and advise.

We hope, in the future months, not only to meet your requirements but initiate new programs to create more interest in the library, the town's educational center.

We invite one and all to come in and make use of our facilities. If we do not have what you desire, we'll do our best to obtain it for you. Your appreciation of the library is determined by your use of it.

Edna F. Boyd, chairman  
Ella M. Yates, treasurer

## POLICE CHIEF'S REPORT-1970

To the Honorable Board of Selectmen  
Ladies and Gentlemen:

Crime in Newton has increased considerably during recent years as it has across the country.

Breaking and entering has been a major cause for concern. As a result of this, much of the time spent by this department has include road patrols necessary to prevention and investigation of these breaks.

Because of these essential patrols, the hourly time rate of the department was rapidly increasing. In late October, I executed a random patrol plan. Random patrol means just what it implies. Police officers patrol the streets of Newton day and night. These patrols are on a voluntary basis. The officers are not paid for their time or mileage. All the officers in the department were very cooperative and readily agreed to the plan.

These officers have special qualities of leadership and they firmly believe that random patrols at no expense to the town is an innovative procedure which would enhance community-police relationship.

I am pleased to submit, also, the fact that each member of the department has completed all prescribed courses in cooperation with the Governor's Commission on Crime and Delinquency and graduated from the Rockingham County Police Training Academy. This program was an eight-week course which was attended by the officers and myself at no expense to the town. I feel confident in that all members of the department are experienced in the problems of today.

One of these such problems is narcotics. In recent months I have arranged for the department to hear several lecturers and specialists on this subject in order that any situation concerning narcotics can be delt with expertly. Partly because of this knowledge, it has been possible for us to solve several problems of this nature. The horror of narcotics is everywhere. It must be studied and dealt with accordingly. In my extensive research on the subject, I have learned that the police department and the townspeople must work cooperatively in order to keep the situation in hand.

I would like to take this opportunity to thank the people for their support in this and all other problems. With this fine relationship continued as well as the excellent programs of the PTA, churches, Boy and Girl Scouts, we are shaping the growth of our town. I feel confident these problems can be overcome, and our

town will remain the fine, upstanding community of which we are all so proud.

Respectfully submitted:

Richard S. Hanson  
Chief of Police

## REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

The fire season of 1970 was not a quiet one in this area, on the contrary, it was a very busy time with some towns reporting a greater number of fires than in past years. This record is not good.

Both state and towns are striving to meet this challenge. Results show that we are not doing enough, we must do more in the matter of fire prevention education, a more active inspection program and a more prompt, complete investigation of fires where definite cause is not known with court action where the need is indicated.

We must insist that minor children are given needed supervision, this is a parent's responsibility.

Your Warden and District Chief stand ready to help in this work.

Our gratitude to all who have helped in forest fire prevention and suppression this past year and we look forward to this continued help in our effort to improve our good prompt detection system and fast suppression action. This, coupled with a good prevention program, will improve our fire record.

Follow these simple suggestions to help:

Set a good example for others by observing fire permit laws and regulations; take your debris and waste to the town dump; keep matches away from children and be sure your smoking material is dead out when discarded.

Number of fires reported and acres burned - 1970 season:

STATE	484 fires	244 acres

## REPORT OF THE NEWTON CONSERVATION COMMISSION - 1970

The Conservation Commission has tried to get total involvement of the youth of our community in civic beautification and environmental awareness in 1970.

In April a Clean-Up, Green-Up campaign was conducted and a prize of two hundred dollars was received for the good work done by the Boy Scouts, Girl Scouts, 4H, Brownies, leaders, and volunteers. This was a first prize given by Station WWNH, Rochester, New Hampshire. Four triangles in different parts of town were cleaned and planted with flowers. New screening trees were planted outside the dump fence. Roadsides were cleaned and much litter trucked away by volunteers.

In the Spring shrubs and trees were given to townspeople on a "first come, first serve" basis. More of this is planned for 1971.

In July a questionnaire concerning our environment was sent to each property owner. The Commission wishes to thank all those who took the time to answer this questionnaire. An overwhelming majority were in favor of more strict enforcement of our pollution and junk car laws and many expressed concern over inadequate state and local inspections of septic systems. The prevailing opinion of residents was that Newton should retain its' rural atmosphere by encouraging the donation of land to the town by property owners or land being bought by the town to remain as "green belt" areas, recreation areas, or for water supplies. A majority of those answering stated they would like to see a swimming area in the summer and skating in the winter.

These questionnaires were turned over to the Selectmen and Planning Board so that all town boards may work together to formulate plans that reflect the desires of the citizens. Our Commission has joined the New Hampshire Association of Conservation Commissions. The purpose of the Association is to better coordinate the work of the various commissions, to provide pertinent environmental information including impending legislation, to help commissions in their contacts with regulatory and resource agencies and to provide financial assistance.

Respectively submitted:

Forest Reynolds, Chairman  
Ruth Woods, Secretary  
Robert Gleichauf
